

# Early Bloomer Greenhouse

# Solexx™

## Early Bloomer includes:

- Twin-wall Solexx™ panels.
- Heavy-duty composite frame: Rust, corrosion and mildew free.
- Two full-length hanging rods: Holds 200 lbs. each.
- Sturdy built-in base: Requires no foundation.
- Large air vent.
- Lockable doors.
- Easy-to-assemble steel fittings.
- 10-year limited warranty.

## **Durable and Efficient Starter Greenhouse**

A great all-around greenhouse ideal for tall plants or small trees—the 6'3" height gives you plenty of room to grow. So lightweight and portable, set it right over your garden to get an early start planting seeds and an extended harvest in the fall. Two easy access hanging rods run the length of the greenhouse to winter-over your favorite plants.

## Model/Size Specifications:

G-108 8'W x 8'L x 6'3"H

## **The Best Light for Plants**

Solexx diffuses light evenly throughout the greenhouse eliminating hot spots and shadows. This additional light exposure increases the plant's photosynthesis, creating more energy and more robust, healthy growth.

## **Extremely Durable**

Solexx offers a 10-year warranty with an even longer life expectancy. It withstands snow, wind, and hail and won't fade or yellow over time. Best of all it requires little maintenance.

## **Most Economical to Heat**

Independent tests prove Solexx provides better insulation than even 8mm triple-wall polycarbonate. Plants thrive while you save on energy costs.

## **Cutting-Edge Framing**

Solexx frames offer the strength of steel without rust and corrosion. This pultruded, composite material was created to replace steel-beam construction in bridges! The white, reflective color won't cast shadows, which contributes to the superior light quality.
